What is CurrentCare?

CurrentCare is Rhode Island's statewide Health Information Exchange (HIE), designed and built through the cooperative effort of the RI healthcare community. This secure network collects information from practices, hospitals, labs, imaging centers, pharmacies and other data sources to share crucial patient information and avoid fragmented data. When patients opt in to CurrentCare, their provider(s) can access their available healthcare information to provide the right care at the right time. Through CurrentCare, duplicate testing can be avoided and clinical staff can quickly access critical information in real time to support safe and effective transitions of care.

NEW! Individuals enrolled in CurrentCare can securely access their personal health record online 24/7 with CurrentCare for Me. See Page 13 for more details.

Systems Sharing Data with CurrentCare

CurrentCare is able to receive clinical information from 14 Electronic Health Record or Health Information Exchange systems:

Allscripts	GECentricity
Amazing Charts	Greenway
athenahealth	Intergy
Cerner	MEDITECH
eHealth Exchange NEW!	Netsmart
Epic	NextGen
Essentia	PointClickCare

COMING SOON:
eClinicalWorks
MatrixCare

The following EHRs receive clinical summaries from CurrentCare directly into their patient records:

athenahealth**
eHealth Exchange **NEW!**
Epic**
MEDITECH
NextGen

**Able to add and reconcile medications, allergies and problems

What can I find in CurrentCare?

- Encounters
- Clinical Documents
- Discharge Documents
- Allergies & Alerts
- Conditions
- Medications**
- Lab Results
- Diagnostic Imaging
- EKG Imaging

“When specialists call me up for labs I've ordered, I say to their staff: 'Enroll in CurrentCare and you can pull these off the website yourselves!'”

- Dr. Lynn Ho
North Kingstown
Family Practice

Read more of Dr. Lynn Ho's CurrentCare Story:
tinyurl.com/DrHo-CCStory

- ENCOUNTERS:**
Have your patients been to the ED or seen a specialist? See where they received care (ED, inpt and outpt) and the treating providers.
- CLINICAL DOCUMENTS:**
A wealth of information. Now includes results and consult notes from the VA!
- DISCHARGE DOCUMENTS:**
Encounter-specific CoCs(Continuity of Care) and Discharge Summaries!
- ALLERGIES & ALERTS:**
Allergies are updated each time our data sharing partners verify this critical patient information. Do Not Resuscitate (DNR) status and other key alert data is also found in this section.
- CONDITIONS:**
Diagnoses and medical problems are updated when patients are treated in a participating hospital or ambulatory practice.
- MEDICATIONS:**
This section provides the list of medications prescribed by participating providers — and may also let you know if the individual filled it at the pharmacy.
- LAB RESULTS:**
View up-to-date patient labs from all participating laboratories in one place! View each lab individually or in cumulative view.
- DIAGNOSTIC IMAGING:**
View imaging reports from participating radiology facilities.
- EKG IMAGING:**
View EKG reports from participating radiology facilities.

CurrentCare Home Patient Search Summary Report Part 2 History

Stoneworth, Melissa **Female**  

Summary Report ● View a CurrentCare record in a single document that may be converted to a PDF for downloading or printing.

Substance Abuse (42 CFR Part 2 History) ● View information from substance abuse and alcohol treatment centers ('Part 2 data') for patients who have consented to share this information. This could include behavioral health and medical information from the following facilities, and is found by clicking the "Part 2 History" button:

- Gateway Healthcare**
- The Providence Center**
- Butler Hospital**
- East Bay Community Action Program (Coming Soon!)**

Demographic Information
Addresses and other demographic information are also available in CurrentCare. You can access this information on the patient summary report or through the icons in the upper right corner on the Viewer home page.

Medication Data Sources

Rite Aid	Express Scripts (ESI)	
Walgreens	Optum Rx (ORX)	
	Prime BCBSRI	
Displays as "Date Dispensed"	Displays as "Date Dispensed"	Displays as "Date Started"

Clinical Data Available...

Encounter Documents

Summaries of your patients' visits to a hospital, ED or outpatient facility:

Clinical Summaries hospitals & ambulatory

Continuity of Care Documents (CCDs) provide a record of the most recent encounter from an organization, including the most up-to-date problems, meds, and allergies. May include vitals, procedures, history, progress notes or other practice-specific information. Titles include: **Summary of Episode Note, Continuity of Care Document or Medical Record Summary.**

Discharge CoCs (Hospitals) available upon discharge

Discharge CoCs (Continuity of Care Documents), required by the State of RI, include a summary of a visit to a hospital or ED. Individual visits can be viewed as separate documents, including prescribed meds, discharged-to location, patient instructions & more! Downloads to your computer, viewable in Word or WordPad.

Discharge Summaries available after provider sign-off

Discharge summaries are available only after sign off by a treating provider. May include a reason for hospitalization, discharge condition, and patient & family instructions. Frequently it will contain **Hospital Course/Progress notes**. Will typically be available after the resident/provider has signed off, and will be updated after an attending provider signs off.

ADT (Admission, Discharge, Transfer)

Ever wonder where your patients are? When a patient has been admitted or discharged, you can view **Encounter Data** from the hospitals and skilled nursing facilities that share ADT information with CurrentCare.

Encounter Data

You will find encounter-specific data on the following tabs: **Medications, Conditions, Allergies & Alerts**, and you can see a list of encounters on the **Encounters** tab.

Test/Results

You will find results on the following tabs: **Lab Results, Diagnostic Imaging, EKG Imaging**. Also found in the patient's Summary Report and within some Documents.

I find CurrentCare really, really helpful and I use it often. I can generally get lab results the same day the patient has done the lab, and it saves me a lot of time.

- Julia Manning, Pharmacist
 South County Hospital - Coumadin Clinic & South County Family Medicine

Read more: tinyurl.com/Julia-Manning

CurrentCare for Me

Enroll.CurrentCareRI.org

Patients can take control of their own healthcare record online 24/7 with **CurrentCare for Me**. They can keep track of their meds, labs and more. And, patients can designate another person – a designee – to view their healthcare record online with **CurrentCare for Me**.

Top 10 Reasons to Log into CurrentCare Viewer:

1. A patient is coming in for care and there is information missing
2. Your time is being wasted and treatment delayed by having to call different labs and waiting for results to be sent
3. Before trying a medication, you want to understand the patient's clinical history
4. Your patient doesn't remember a part of their medical history
5. It's 2 am, and you need your patient's most recent EKG tracing or imaging report
6. Your patients cannot remember which medications they are taking
7. You want to see the trend in a lab value over time
8. A patient tells you they were in the ED or inpatient, but you don't have a record
9. You want to be informed about all the places your patients are receiving care
10. You're participating in quality/value-based payment models and want to receive full credit for care delivered

Want to learn more? Check out the CurrentCare Knowledge Center

The Rhode Island Quality Institute has created a resource called the CurrentCare Knowledge Center for practices who are using CurrentCare services. Please take a look to learn how to integrate CurrentCare patient Enrollment, Hospital Alerts and Viewer into your workflows and maximize value for your patients and staff.
