

CurrentCare is Available in My EHR? Great! What do I need to know?

You now have access to patient data from over 235 facilities that send data to CurrentCare... right inside your Electronic Health Record (EHR) without a separate login!
Welcome to healthcare for the 21st century!

What is in CurrentCare?

CurrentCare is Rhode Island's Health Information Exchange (HIE), a secure electronic network that gives authorized medical professionals access to their enrolled patients' most up-to-date health information from over 235 sources. For the complete list, view the CurrentCare Guidebook at: <http://tinyurl.com/CurrentCareGuidebook>

**Over 478,000
patients enrolled!**

What is available in my EHR vs. CurrentCare Viewer?

Your EHR will show you a majority of a patient's CurrentCare information, however, there are certain data types that are only available in CurrentCare Viewer. Over 1,444 providers and staff have access to the Viewer. You may want to access the Viewer directly for certain information:

Patient Data	In your EHR	In CurrentCare Viewer
Medications Allergies Lab Results Conditions Encounters Diagnostic Imaging Reports	✓	✓
Clinical Summaries Part 2 Info (Substance Abuse & Behavioral) EKG Imaging CoC & Discharge Summaries - coming soon		✓

How can I get access to CurrentCare Viewer?

- Ask your organization's CurrentCare user administrator to add you as an authorized CurrentCare user. If you are unsure who this is, ask your office manager or IT department. If they are unsure, they can contact us directly.
- If you have already been trained, but forgot your username or password, try the "Forgot ID/Password?" option at the bottom of the login page, or call us at 888.858.4815, option 3.
- How do I access the CurrentCare Viewer? After you've attended training and received your login information, go to <http://tinyurl.com/CCViewerLogin>.

What should I do next?

- Think about what patient information you typically need, and where CurrentCare might save you time.
- Integrate CurrentCare into specific workflows (new patient planning, pre-visit planning, medication reconciliation, etc).
- Decide if you need access just within your EHR or both in your EHR and Viewer.
- Ask to meet with one of our Relationship Managers to create a plan for your office.

Questions? Contact us at CurrentCare@riqi.org or 888.858.4815, option 3
